## CAREER OBJECTIVE

I am an aspiring engineer with a fervent dedication to driving innovation through my strong problem-solving abilities. My passion lies in tackling complex challenges and finding creative solutions. I am actively seeking opportunities in technology-driven environments where I can apply my skills and contribute to meaningful advancements.

---

## EDUCATION

Neil Gogte Institute of Technology,  
B.Tech in CSE(AI-ML),  
 November 2020-Present

Sri Chaitanya Junior College,  
12th Std,  
 June 2018 – October 2020

Howard Model School(SSC),  
10th Std ,  
 March 2018

## SKILLS

- Java
- SQL
- HTML
- CSS
- Python(Basics)

## SOFT SKILLS

- Problem Solving
- Time Management
- Teamwork
- Decision making

## PROJECTS

### Handwritten Digit Recognition

- Developed a model to identify and determine the handwritten digit from its dataset with better accuracy and aim to complete this by using the concepts of convolutional neural networks and MNIST dataset.
- Technologies Used:  
Python  
Gradio Interface

### Student Management System

- A simple website page that takes the details of students regarding their admission details and maintains it in a database.
- Technologies Used:  
Java,  
MySQL

## DECLARATION

- I hereby declare that the above mentioned information is correct and best of my knowledge.
